

and utilizing the abundant resources of its partners to build industrial internet-of things (IIoT), artificial internet-of-things (AIoT) and AI supercomputers, while creating a cloud platform. Apart from preparing for the transition to 5G in 2020, these initiatives also offer a diversity of approaches in how we use technology in our daily lives, from communication and banking to environmental quality monitoring management. For example, M+ (Mobile is your Desktop Phone) forms our mobile extension service, while M+ Red Envelope and MyAir pocket PM2.5 detectors are products of IoT and cloud technology. These innovations are giving consumers brand new experiences in their technological lives.

Taiwan Mobile is also actively constructing a multimedia streaming platform, where it will produce its own programs and combine myVideo/myMusic/myBook with new content services. In this way, consumers will be able to enjoy an all-around multimedia experience. The Company is proud to be the leader of sustainable digital streaming providers, as it diversifies into the four business areas of T.I.M.E. (Telecom, Internet, Media & Entertainment, and E-commerce). This should entice clients and our stakeholders into a brand new technological experience and facilitate the Company's leap into the new digital era.

Starting with technology and human nature and welcoming the ever-changing 5G era, Taiwan Mobile will continue to have "Innovation" as the core value of the company and to adopt the 5"G"+ strategy, as it continues to aim for the maximization of its values and bring a brighter future to its stakeholders.

Date of Incorporation

The Company was founded on February 25, 1997.
