Dividend policy

1. Dividend policy under Articles of Incorporation

The dividend policy in general is to distribute earnings from retained earnings in the form of cash after deducting forecast capital expenditure. Should there be a stock dividend distribution, it should not exceed 80% of the total dividends distributed in a single year. The dividend payout proposed by the Board of Directors (BoD) has to be approved at the annual shareholders' meeting.

2. Proposed dividend allocation for approval at annual shareholders' meeting

Below is the dividend plan based on 2023 earnings approved by the BoD. It has yet to be passed at the 2024 AGM.

Unit: NT\$/share

	Cash dividend		
Year	From rotained cornings	From additional	Stock dividend
	From retained earnings	paid-in capital	
2023	3.6251	0.6749	-

3. The Company maintains a dividend policy with a high payout ratio

Historically, dividends distributed to shareholders were no less than 80% of retained earnings available for distribution for that year and composed of over 80% cash. A historical listing of dividends distributed is posted on TWM's official website.

Impact of stock dividend distribution on business performance and EPS

None.

Employees' and directors' compensation

1. Earnings distribution plan according to the Company's Articles of Incorporation

If the Company posts an annual profit, it shall set aside 1% to 3% of the profit as employee bonuses and not more than 0.3% of the profit as compensation for directors. However, if the Company posts a loss, it shall first reserve a certain amount to offset the losses, then allocate the remainder for employee bonuses and directors' compensation. Recipients are to include qualified employees of TWM subsidiaries.

2. Accounting treatment for the deviation between the estimated and actual distribution amount of employees' and directors' compensation

The Company accrues employee bonuses and directors' compensation proportionally from the pre-tax income before deducting employee bonuses and directors' compensation, and amounts reserved in advance. Should there be a deviation between the actual distribution amount and the accrued amount in the annual financial reports after the publication date, the difference should be treated as changes in accounting estimates and adjusted in the following year.

3. 2023 employees' and directors' compensation proposals adopted by the BoD

(1) Employees' and directors' compensation paid in the form of cash or shares and differences/reasons/treatments of accrued numbers if any:

The 2023 employee bonuses and directors' compensation approved by the BoD on February 21, 2024, totaled NT\$405.977 million and NT\$40.598 million, respectively, in the form of cash, while the accrued amounts in the 2023 financial report are the same as the cash compensation.

(2) Employee bonuses paid in the form of shares and as a percentage of total net income on a stand-alone basis and of total employee bonuses: None.

4. Earnings distributed as employee bonuses and directors' compensation in the previous year

Difference between the amount approved by the BoD and actual distribution of 2022 employee bonuses and directors' compensation: None

Share buyback: None
